Allowable Subject Matter

1. Claims 5 and 7 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 5, the prior art of record neither shows nor suggest a method of manufacturing plasma display panels comprised of, in part, forming a film of MgO on a substrate in an evaporating room, the substrate being held by one of a plurality of substrate holders, the substrate holders comprising a plurality of elements, and repeatedly using the substrate holders, such that when the MgO film is formed on a substrate, at least one substrate holder in the evaporating room is coated with MgO film during forming the MgO film on a substrate, and at least one holder in the evaporating room comprises elements not coated with said MgO film, along with the rest of the limitations of the claim.

Regarding independent claim 7, the prior art of record neither shows nor suggest a method of manufacturing plasma display panels comprised of, in part, repeatedly using the substrate holders for forming film on a substrate, the repeated use comprising a manufacturing cycle, wherein each time film is formed on a substrate in the manufacturing cycle, other than the first time the film is formed on a substrate, at least one substrate holder in the evaporating room is coated with the film during forming film on a substrate, and at least one holder in the evaporating room is not coated with said film, along with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
